

# Made In Ohio

## Zanesville - Muskingum

June 6 - 7, 2013

This overnight trip is rich in Ohio heritage and companies that produce American-made products right here in our Great State! We begin with a tour at the *Hartstone Pottery Company*. You'll see some of America's finest hand painted and handcrafted items being made on the factory tour. The next stop is at

*Weasel Boy Brewery*, Zanesville's first microbrewery. Here you can learn about the craft beer-making process, eat some great pizza and even sample a variety of beers. Then it's off to tour the largest contract embroidery company east of the Mississippi, *5 B's*. This massive operation does work

for nationwide retailers such as Wal-Mart, JC Penney, Sears and Gap to name a few. This is followed by a walk through the boyhood home of John Glenn at the *John and Annie Glenn Historic Site*. This tour incorporates actors in costume for a one of a kind experience. Dinner this evening is at the *National Road-Zane Grey Museum*. This unique museum depicts the history of America's first federally funded highway as well as the original Conestoga wagon and it also showcases western novelist and Zanesville native Zane Grey.

Thursday start's off with a tour of *Conn's Potato Chip Factory*.

Experience first hand how 50,000 pounds of potatoes are turned into mouth-watering potato chips every day! Our next stop is the world famous *Longaberger Baskets* factory tour. Watch hundreds of expert basket makers weave beautiful handcrafted baskets and view the educational displays. This is followed by a family-style feast at the Longaberger Restaurant. The last stop is the quaint *Village of Dresden* where the Longaberger tradition began. There is free time to shop and explore over 40 stores before departing for home.
